Start off every workout with a brisk 5-minute walk to warm up.
Don't worry about your speed - just focus on being able to keep running (even if it's slow!)
If in doubt or feeling tired, take an extra rest day or repeat a week.
PLEASE NOTE: Depending on your own particular schedule, you may want to juggle workouts, substituting one day's workout for another. It doesn't matter much on which day you do specific workouts as long as you are consistent with your training.
